WORK EXPERIENCES

Intel Corporation, Malaysia

SoC Design Engineer

Apr 2022 - Jun 2023

- Developed debugging scripts that optimized +44% bug reporting churn-out rate
- Analyzed and resolved 59 unique project bugs within the first-phase E-core project delivery
- Collaborated with 2 cross functional teams for early debug effort to resolve 19 critical design bugs
- Discovered and coordinate with technical lead to resolve early critical 19 design and simulation bugs within 3 weeks
- Accelerated the on boarding of 2 new team members in debugging roles, reducing the ramp-up period from 3 months to just 2 months through effective mentoring

Soft-IP Validation Engineer

Mar 2021 - Apr 2022

- Developed email bug reporting system results with +15% debug effort improvement within the team
- Developed bucketization script that sorts +10k test failures that guide capture of early critical bugs
- Spearheaded test migration effort for legacy PCle project within 2 weeks with +70 features
- Managed 6 Test Plan Feature for Link PCle across ADL and MTL PCle projects

Graduate Technical Trainee

Nov 2019 - Mar 2021

- Managed 1 sub-feature with improvement test coverage hit from 30% to 72% on ADL PCIe project
- Captured and resolve 27 high-level errors on early stage of project independently
- Collaborated cross-team support effort on regression script maintenance resulted in 66% dropped in breakdown

PROJECTS

Jiu-jitsu Technique Tracker - BJJ Technique Learning Web Application

Feb 2024 - Present

- Designed using MongoDB, Expressis, Reactis, Nodeis application MERN stack with API integration
- Visualized feature consists of Logging, Category management, Note-taking, and Media attachments
- Inspired from personal hobby that would help me recap and keep track of my learning progress

SimplyPress - Blog post web app for mock-up article planning

Nov 2023 - Dec 2023

- Developed using EJS, CSS, Javascript, Expressjs, Nodejs, and Bootstrap
- · Basic CRUD functionality of add, delete, edit, and post with author, title, content, and genre contents with simple user interface and experience (UI/UX)
- Inspired from writing a Medium blog post that goes into draft before publishing

EDUCATION

Northumbria University Newcastle

Oct 2019

Bachelor in Electrical and Electronic Engineering, First Class Honours

SKILLS & LANGUAGES

Test Planning & Validation • Perl Script • Batch Script • Python • UNIX Script • Linux • System Verilog • RTL design Validation • HTML/CSS • Javascript • JQuery • Nodejs • Expressjs • Reactjs • MongoDB • Git • Communication • Collaborative • Adaptive • Growth-driven • English • Mandarin • Malay
